NOTES

1. All structural opening sizes are to be checked on site prior to manufacture of door linings/frames and leafs. Specialist door supplier is responsible for all handing of door leafs as shown on the General Arrangement Floor Plans.

2. Pack size stated to jamb is based on a nominal 32 mm frame/lining thickness, and should be adjusted to suit specialist door suppliers standard dimensions. Refer to detail drawings for more information.

3. Door leaf thicknesses to be determined by the specialist door supplier, based on the fire and acoustic requirements provided.

4. Door stop sizes to be determined by the specialist door supplier, in accordance with the fire requirements provided.

5. Acoustic and fire seals specification to be determined by the specialist door supplier, in accordance with the fire and acoustic requirements provided.

6. Final lining details to be determined by the specialist door supplier.

7. Refer also to FCG NBS work-sections L20 + L40 generally.

8. Doors with masonry construction generally have an S.O. height of 2085mm, and doors with drywall constructio generally have an S.O. height of 2085mm; unless otherwise noted.

NOTES: Do not scale this drawing. All dimensions to be checked on site prior to commencement or manufacture.
